## [Food Waste & Yard Trimmings](#)

State Law (AB 1826) requires businesses that generate 4 or more cubic yards of organic waste to separate it for recycling. The term "organic waste" means food waste, green waste, landscape and pruning waste, non-hazardous wood waste and food-soiled paper waste that is mixed in with food waste. We can assist your business with these services. (Multi-family properties are NOT required to separate food waste but are required to recycle plant material.) Call for details.

## [Recycling & Document Destruction](#)

Business managers may call our office for information on recycling, electronic recycling, and ink cartridge recycling. We also offer secure destruction of business documents at our facility.
